

Mixed harvesters with rear umbrella

Serie 100 for dry nuts and olives

Standard equipment:

- › Simultaneous opening movement of umbrella and vibrating heads.
- › Independent regulation of the fold/unfold speed of the umbrella.
- › High pressure hydraulic system (200 bar) with:
 - › The orbital vibration block is reversible in two directions.
 - › Vibration brake.
 - › Self-tightening of the vibrating head while vibrating.
- › Olive kit (rod with spiral).
- › Mesh kit for olive
- › Monomass vibrating head with elevation and transversal orientation.
- › Hydraulic central integrated into the harvester.
- › Peelers with independent regulation..
- › Hydraulic pipes for unloading endless screw and hydraulic 3rd points directly to the tractor.
- › Hitching to the 3 points + connection through PTO SHAFT.
- › Protection grid for the tractor hydraulically adjustable.
- › Supplement 4 mass MIX.
- › PTO SHAFT 1000 r.p.m.
- › Optimal working revolutions: 880 r.p.m.
- › Prepared for the collection of nuts.

- a: Total width
- b: Total lenght
- c: Tree entrance opening
- d: Interior width
