

SDN+ P and SDNC-P direct seeders with paralelogram arm seeder

Paralelogram seeder arm assembly

Standard equipment:

- › 4.000 L hopper in SDN+ P (seed).
- › 4.000 L: 2.400 L (seed) + 1.600 L (fertilizer) in SDNC-P.
- › Hopper access platform.
- › Seed selection screen.
- › Turbine with tractor-independent hydraulic circuit (driven by cardan transmission), TFT 540 r.p.m.).
- › Independent regulation of turbine rpm.
- › Monitor in the cabin.
- › Rear lights kit.
- › Folding seed train on 2 wings.
- › Flotation tires 560/45-22.5".
- › Depth control by rear wheels and lance cylinder.
- › Double off-center seeding discs mounted on paralelogram with internal cleaning device.
- › Compacting wheels with angle, pressure and alignment adjustment.
- › Electronic controller with 5 functions:
 - › Account hectares.
 - › RPM turbine.
 - › Control of forward speed.
 - › Fill sensor.
 - › Turn dispenser filling alarm.
